

## INTRODUCTION

I have a very strong interest and 7 years hands on experience in ICT including Programming, Web Development and Technical Support for an Internet Service Provider. I am currently in my 3<sup>rd</sup> year of a Bachelor of Information Technology (Majoring in Computer Science and Web Development) at Deakin University and I am seeking part-time work in a related field.

## MY OBJECTIVE

### TO OBTAIN A PART TIME POSITION OR CONTRACT WORK IN THE GEELONG REGION

After I was recently made redundant at my previous position with Hugo!Net I decided to start my own business. However I have found that I am not able to keep up with both my university studies and the day to day of running a small business, since I wish to devote more time towards my studies I am currently looking for a part time position:

- Up to 3 days per week.
- Would like to continue doing what I love, Websites and Web Applications.
- Flexibility to allow for exams and other University commitments.
- Working from home would be appreciated but not necessary.
- Happy to provide after hours / on call support services

## MY KNOWLEGE SUMMARY

**CERTIFICATIONS:** CertIII & CertIV in Information Technology, Microsoft Certified Professional

**SYSTEMS:** UNIX/LINUX, Windows 9X/NT/2000/XP/2K3/2K8

**DATABASES:** MsSQL, MySQL, Sqlite and other Relational Databases

**LANGUAGES:** HTML, CSS, JAVASCRIPT, PHP, C# / ASP.NET

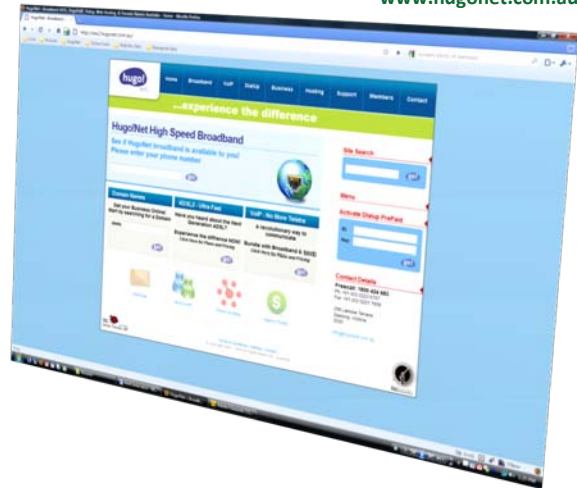

*I am also currently studying for my Cisco Certified Network Administrator Certificate.*

## MY EDUCATION

2008 – 2010

DEAKIN UNIVERSITY, GEELONG

### YEAR 1: COMPLETED

- INTRODUCTION TO SOFTWARE DEVELOPMENT *Distinction*
- INTRODUCTION TO COMPUTER SECURITY *Distinction*
- WORLD WIDE WEB AND INTERNET *High Distinction*
- OBJECT-ORIENTED DEVELOPMENT *High Distinction*

### YEAR 2: COMPLETED

- INFORMATION SYSTEMS ANALYSIS AND DESIGN *Distinction*
- CLASSES, LIBRARIES AND ALGORITHMS *Distinction*

2007

GORDON TAFE, GEELONG

### CERTIFICATE III IN INFORMATION TECHNOLOGY

As quoted by <http://www.tafe.vic.gov.au/tafecourses/search/Courses/Detail.asp?ID=32081>

*This qualification is from the Information and Communications Technology Training Package and provides the skills and knowledge for an individual to be competent in introductory ICT technical functions. It is designed to support information activities in the workplace and to achieve a degree of self sufficiency as an advanced ICT user. The qualification will give employers a degree of confidence in an individual's usefulness in the workplace as it has a strong suite of 6 common core ICT units, building on the prerequisite knowledge and skills from the 8 Certificate II in Information Technology core units.*

### CERTIFICATE IV IN INFORMATION TECHNOLOGY

As quoted by <http://www.tafe.vic.gov.au/tafecourses/search/Courses/Detail.asp?ID=24790>

*The course is designed to meet the need for skills training that has been identified by industry in the areas of programming, hardware, computer architecture, information technology management, client support, software applications, networks and data communications, operating systems and web page development.*

2004

AUSTRALIAN IT INSTITUTE, GEELONG

### MICROSOFT CERTIFIED PROFESSIONAL

I have achieved Microsoft Certified Professional status and I am proficient at installing and configuring Windows XP/Vista workstations. I also have the knowledge to administer a Windows 2003/2008 Active Directory network. Please see attached certificate and details of Microsoft exams I have successfully completed.

## MY EMPLOYMENT HISTORY

2006 – 2010

HUGO!NET, GEELONG

### WEB DEVELOPER / TECHNICAL SUPPORT

I managed the Hugo!Net Hosting Department, this includes anything from setting up new hosting and email services on the Linux and Windows based Web Servers through to designing and developing Websites and Web Applications for customers.

Using the skills I have gained through this work and university studies I also started to develop and upgrade some of Hugo!Net's internal systems that deal with Customer Billing, Dialup / DSL Provisioning, Payment Gateways, etc.

The other major role that I took on as part of the Hugo!Net Team was to ensure that the customers were kept happy and that their services worked as advertised. All the inbound calls were handled in house at Hugo!Net. This included both Sales and Customer Service related calls.

2005

JONES & JONES ENGINEERING DESIGN, GEELONG

### IT ADMIN / WEBMASTER

Part Time throughout 2005 I undertook an IT Admin Role for Jones and Jones Engineering Design including:

- managing the Microsoft Windows 2003 Active Directory network
- performing backup duties for the data stored on the network
- corporate website maintenance
- constructed workstations
- and installed Windows based software

## INTERESTS AND ACTIVITIES

### LINUX EXPERIENCE

Through my own endeavours I have become experienced in the administration of Linux and other such related open source technologies. I have run my own domain (bjc.id.au) for some years now, all hosted out of my study at home.

### PROGRAMMING

I have always had a very logical thought process from an early age. While my peers were playing computer games I was trying to figure out how they worked. Programming has always been something I have enjoyed even when under time pressure. To date most of my work has been done using web based technologies such as JavaScript & PHP. I am willing to learn new technologies, since I find the challenge of learning new technologies very motivating.

### ROBOTICS

Naturally when given the chance at High School I entered the RoboCup Championship. *"RoboCupJunior Australia is a project-oriented educational initiative that supports local, regional and international robotic events for young students."* <http://www.robocupjunior.org.au/>

### GEELONG WEBTECH MEETUP

Once a month I meet with a group of like minded technology enthused people. This is a really good chance to meet new people, share ideas & code, and build up a network of relationships.
